A CLASS OF YOUNG MEN RECEIV ED INTO THE MINISTRY THIS MORNING.

ADDRESSED BY BISHOP W. F. ANDERSON

Divine From Friends' Denomination Also Received-Application cf Church of God Disciple It Referred

The third day's session of the St. Louis district M. E. church conference proved to be a very busy one.

Convening at 8:30 o'clock by the singing of a hymn, followed by the entire congregation repeating the Lord's Prayer, and the devotional ex ercises, conducted by the Rev. F. L. Thompson, of St. Louis, pastor of the Lindell Avenue M. E. church, it took but a short while for the conference to proceed to the regular routine of

Rev. Thompson, after giving a Scriptural reading, delievered a forceful talk on "Ye are the salt of the earth." In his remarks he spoke of salt as being a great healing agent. disinfectant and restorative for the physical being, and further in his talk brought before his auditors the meaning of "salt of the earth" in a spiritual sense.

merely refuse when losing its savor. His address was followed by an invocation by Bishop Anderson.

Rev. Perry E. Pierce, secretary of the conference, read the minutes of Thursday's sessions, they being approved.

The reading of the minutes was followed by a discussion regarding the incorporation of the conference under the laws of the state.

Rev. M. H. Licklider, of St. Louis suggested that a series of open air meetings be held each evening during the remaining days of the conference and a committee was selected to ar range for the same.

The examining board reported on several young men entering the ministerial field, and who are just taking the full relationship. Those advanced were as follows: Charles E. Ferguson, Frank W. P. Camp, James F King, Charles A. Gilbraith, Thomas G. Peterson, Leon H. Sweetland, Claire V. Bryan, Robert A. Hunt and Ject. William O. Tolbart.

Rev. Jesse I. Phillips, of Kansat City, who has been a minister of the Gospel in the Friends' denomination. was received into the full fellowship of the conference.

Rev. C. D. Bradley, of Flat River, who has been a minister in the Church of Ged, was introduced and his application for membership was referred to the committee on conference relation.

Dr. David G. Downey, of Chicago, corresponding secretary of the board of Sunday schools, delivered a very helpful and instructive address on the Sunday school movement.

At the conclusion of Dr. Downey's remarks the regular work of the conference was resumed.

The class of young ministers, passing a successful examination, were addressed by Bishop W. F. Anderson. who explained the requirements and the responsibilities of the work they are entering. Personal appearance and general conduct were touched on by the bishop, and the mistakes of chers were related in some Instancos, that the new ministers might profit by their experiences. Regeneration and progress was instilled in the hearts of the young clergymen by Bishop Anderson, and they were congratulated heartily on their starting in ministerial work.

At the close of Bishop Anderson's address he administered the ritualistic ceremonies attendant with the lacoming of the class.

Greetings by handshaking were extended the incoming class, while the conference sang "Blest Be the Tie

AN EMPTY TREASURY

For seven months of the fiscal year the customs receipts were more than \$16,000,000 less than a year ago; the internal revenue and the miscellaneous reveues each fell off early \$5,-000,000; the total decrease of revenue for the seven months was nearly \$26,-000,000. But the expenditures increased nearly \$35.000,000.

Congress will not stoop to fit the appropriations to the revenue so long as there is a lot of money, the proceeds of excessive taxation in the vaults of the treasury. Last year congress increased the appropriations \$80,000,000, with a deficit averaging close to \$5,000,000 a month for the

on the government increased more than \$12,000,000; the cost of the army went up nearly \$15,000,000; there was a small addition to the cost of the navy; the care of the Indians cost over \$2,000,000 more; pensions cost over \$6,000,000 more; public works cost a little less, and interest a trifle

The deficit falls but little below \$80,000,000. The available cash balance is now under \$150,000,000; the remainder of the fiscal year will bring it down toward \$90,000,000, and this includes about \$10,000,000 of silver dollars and bullion and small change. and the treasury ; egards \$50,000,000 as a very small allowance for a work ing balance.

Congress shows little disposition to cut appropriations and the revenue increases slowly with the very gradual improvement of business. The revenue for January was a couple of millions less than it was a year ago The extravagance of congress has brought the country face to face with new taxes. The reimposition of the Spanish war taxes is already talked

of. Peace under Roosevelt has proved more expensive than war was before him. The cash in the treasury will only last a few months longer, and the country has got to borrow money or collect more taxes.

Pins Her Faith to the Goat.

Goat's milk and no vaccination is the doctrine of the duchess of Hamilton, premier duchess of Scotland but shyest and most retiring of women in private life, in bringing up her four children. She is president of the British Goat society, and a goat is always a valued member of the ducal retinue. The family never goes anywhere without one. The duchess is always preaching the value of goat's milk and goat's flesh, averring that the virtues of the goat have not been appreciated. The duke, an invalid, passes most of the time at his Scottish home, Hamilton palace, a great mansion that absorbs nearly all his income. He inherited, the title from his cousin, the twelfth duke, but the estates passed to the late duke's daughter, now the marchioness of Graham, who is one of the wealthiest women in England.

COAL RATES IN MISSOURI

ATTORNEY GENERAL ALLEGES SOME RAILROADS ARE IN CONTROL OF MINES.

DISCRIMINATION IS SHOWN AS A REGULT

A Direct Violation of the Charter to Own the Properties and Sell the Cutput, Says the State Legal Officer.

Jefferson City, Mo., March 19 .- A torney General Major gave out a state ment last night relative to the owner ship of coal mines by railroad com panies which they operate in opposition to other miners, affording an opportunity for discrimination in freight rates. The railroads, it is also alleged, sold the output of their mines to the general trade, which is a violation of their charter rights. This matter has been the subject of an investigation and Attoney General Major said:

"The question of freight rates on coal within this state was investigated at Kansas City yesterday by the railroad and warehouse commissioners, aided by one of my assistants, Mr. Revelle to the end that the true condition might be ascertained and any inequalities in the rates now ex- hunt for Hood and the release folisting may be adjusted as the law and lowed. the facts warrant. Brief Wills.

Harper's Bazar.

Ten lines on a scrap of paper were sufficient to dispose of the immense fortune of the late Mr. Henry Barnato. The will was not the shortest on record, but it ran the record close. Probably the briefest testament was that of a Streatham (Eng.) gentleman who had often declared that he would make his will on a half-sheet of notepaper. Probably he had Balfourian leanings in politics. He did as he had said, and wrote "All for mother" on a bit of paper. The will was signed "C. T." and witnessed by the testator's two sons. The document was admitted to probate in due course.

Clemenceau Seeks Only to Save Principle and Then Simyan May Be Forced Out-The Situation Is Very Acute.

Paris, March 19.-There was not the slightest indication at a late hour last night of a break in the deadlock between the government and its striking employes, nor was there any prospect of an improvement in the situa-

Despite the fact that the cabinet at its session last night passed a decree authorizing the dismissal of the late employes from the state service and reaffirmed its determination not to yield, the semi-official note, giving tee that many merchants have offered to lend to the government their employes to insure the public service.

The note does not mention the sensational rumo: that the government intends to call the reservists to the colors, thus gathering in practically all the male postal employes and forc- day when 600 cases, containing 15,600 by a city detective and locked up by ing them to work as soldiers under penalty of mutiny.

On the contrary, the general opinion is held that Premier Clemenceau seeks only to save the principle for which he has contended, and that if the chamber today indorses the atti tude of the government, the premier will be ready for the resignation of M. Simyan, the under-secretary of bury, N. C., who is the author of sevposts and telegraphs, and thus open the way for negotiations.

An original luncheon dish made from easily prepared, inexpensive and delicious. The following recipe provides sufficient quantity for three adults; Take enough crisp colery to make a cupful when chopped fine, using a few of the green leaves for the purpose of Two little newsboys, ragged and coloring; one medium-sized onion, chopped or thinly sliced; boil slowly the celery and onion for 40 minutes in two cups of sweet milk; then add cold boiled rice, well separated; two "But he's the greatest ball player medium sized ripe tomatoes; half a using cayenne pepper; stew (or bake) slowly for 15 minutes, and serve hot

Pork Cake.

Three pounds of fat pork chopped very fine. Pour over it six cups boil ing water and let it stand while preparing other ingredients. Three pounds dates cut in small pieces after removing stones, one pound citron cut in pieces, three teaspoons ground nut-"It is a bit singular," agreed the meg, two teaspoons ground cloves, three teaspoons cassia, three teaspoons soda, nine cups sugar, 31/2 quarts flour. Mix with hands in a bread raiser and bake in two large sheet iron biscuit trays. Bake very slowly and cool in pans. Cut in loaves, wrap in paraffin paper and keep in a cool place. It seems rather a large quantity to make at one time, but it doesn't last long, for everyone wants some of it and the last is always better than the first.

Two Kinds of Criticisms.

"I am going to read you my sonnet to 'Persephone's Left Elbow,'" announced Miss Amma Teuritre to her betrothed. "I want you to give me perfectly frank criticism, just the simple truth, as though you did not

Circus Daring Due to Heredity.

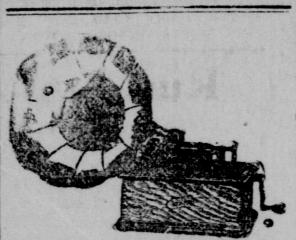

Alfred T. Ringling tells me that nine-tenths of the leading performers about one cupful of odd bits of cold before the public can be included in broiled or roasted chicken, three or 30 families. As sharply defined as four tablespoonfuls of chicken gravy any old English lineage, they can be and a little dressing; half a cup of traced backward in some instances more than two centuries—each generation accepting without question the heritage of spangles and tights. The circus daring and the circus muscles and the circus restlessness have descended from father to children and thence to children again. The thrill of the sawdust ring has got into the blood. From the parent trunk branches have crossed and crisscrossed until as in the case of the Clarkonians seeded raisins chopped, two pounds and the Demotts and the Siegrists Florenzes, great circus lines have been built up and guarded with the zealous care of a royal genealogy.-Hugh C. Weir, in the Bohemian.

Democrat Elected Prosecutor by I dependents Has Started Ball To Rolling, and No Telling Where 'Twill Stop.

Cincinnati, March 19 .- The first move in the reform movement to clean up Cincinnati was the indictment by the Hamilton county grand jury yesterday of Daniel Bauer, a member of the city council for the last five years, on the charge of conducting a place that constitutes a nulsance. Bauer is proprietor of the Majestic saloon and concert hall on Vina street.

Indictments were also returned against Jacob Bittner and Edward Brannigan, proprietors of concert halls, on the charge of maintaining a

Big Wages Must Be Earned. A group of feminine wage earners

was discussing a news item the other day, one which told the public that the private secretary of the greatest financier of his time is a woman who receives \$20,000 a year. There was envy in their voices and bitterness in their words, and nobody seemed to grasp the pith of the story, which was a recital of the secretary's duties. There was a woman who had to be on duty many hours, and possess not only a marvelous memory, but infinite tact and patience. More than that she had to possess marked executive ability.

She has probably been in training for years, and undoubtedly earns every penny of her salary. The girls who envied her could not do the work. because they were not fitted for itprobably they would not under any circumstances, because they were not the hard-working kind. All they could see in the story was the salary, and that made them envious.

Doctors for the Well.

There seems to be much to commend the practice of employing a doctor at so much per year to visit the homes of his clients, watch their diet, clothing, habits, the sanitary condition of their person and homes: to teach them the laws of health and how to be temperate in eating, drinking, bathing, exercising, recreation and work. People who are never sick are the ones to whom this should apply with special force, for there always comes the day when sickness knocks at their door. DANGEROUS FORM OF SPORT. Bear an Ugly Customer to Deal With

at Close Quarters.

"Twice in my chase of bruin I have made use of a bear spear as my weapon of attack," writes Count Eric von Rosen, "and I may take this opportunity to maintain that the use of a spear entails no greater cruelty than any other mode of attack, and that every hunter should be armed with one in reserve, since these powerful beasts have a vitality that triumphs over a stray bullet or more, unless lodged in a vital region; and when wounded, their retaliation is redoubtable and easily fatal. In Karelia, Finland, the bear is yet regarded as a noxious horror. The great black-haired 'slagbjorn,' or killing bear, is still rampant there, and a couple of winters back I was able to wreak justifiable killed over a score of cows and nine norses. News had been brought me that some of these rascals were hiber nating on a small marsh-bound island. "We found no difficulty in locating their lair, and I took up my post at the entrance to it, armed only with my spear. I may explain that a bear spear consists of an ash staff some two yards long and about a couple of inches in diameter; there is a blade of steel about twelve inches in length, and the shaft is copper-cased as a pre vention against the teeth of bruin. As soon as my gentleman appeared I tried to stick him in the throat, but he parried adroitly and I missed; I made an-

other lunge and succeeded in driving my spear point through his breast. "He started roaring furiously and snapped at my copper-cased staff, then made an attempt to strike at my arm with his huge forepaw, so that I might drop my weapon. The powerful brute hung on to my spear at one end while I as grimly held on at the other copper plate and he started shredding the wood beneath. Strenuously checked his further advances, and gradually, for his wounds began to tell, his resistance weakened, and he

dropped at last over the aperture of "I pulled out the spear, but so much still remained in him that he seized the blade and bit it with a force that left deep indentations in the steel. My companion then finished him off with

his own weapon. This struggle from

start to finish covered five minutes."

When Gen. Schenck, whose greatest fame rests upon his having introduced the game of poker into England, first arrived in London as American minister to the court of St. James he took a little of his spare time to visit the sights of the British capital. Among other places he visited Mme. Tussaud's wax works.

"And what do you think of our great wax work exhibition?" asked a friend. "Well," replied the general, "it struck me as being very like the ordinary English evening party."

Beans and Bacon. An old Scotchman surprised us all by remarking: "Your famous New England dish of pork and beans came directly from England, where for centuries it was the reigning favorite with all classes. The English called it 'beans and bacon.' In New York you have corned beef and beans-the same old beans. I never could understans why beans and bacon were never naturalized in the Land o' Cakes. I cannot charge myself with ever having seen such a dish in Scotland."

Pity the poor man who has an income of six or eight or ten thousand dollars a year. He has more worries than the man who works for three dollars a day. One of these poor men whose salary is eight thousand was telling his woes to a friend the other

"Poor," said he, "I'm as poor as church mouse. Even if I do get eight thou' a year, I'm in debt, and I've been in debt ever since I can remember. I never have been able to catch up. The general public thinks that a man with an income of twenty-five or thirty dollars a day is blessed. But they haven't an idea of how he is hemmed in and hampered and held in thrall by the very fact that he has an income of

that amount.

"Take my daughter's case, for instance. Of course she must have fine education and every advantage that a father who makes as much money as I do can provide. Did it ever occur to you how much it costs to afford such advantages to a young lady of eighteen or nineteen? I sent my daughter to Vassar, and, as befitting a girl of her age and station in life, I rigged her out with a complete equipment in the way of dress. What do you suppose that girl did? Within two months she put on 23 pounds in weight. Not a thing in her wardrobe would fit her. Well, my wife bought a new outfit complete for her. That girl of ours came home for the Christmas holidays, a few weeks later, with most of her garments held together by strings. She had outgrown even the second lot. Now, I've got to buy third outfit for her.

"About two years ago I contracted sczema and suffered intensely for about ten months. At times I thought I would scratch myself to pieces. My face and arms were covered with large red patches, so that I was ashamed to go out. I was advised to go to a doctor who was a specialist in skin diseases, but I received very little relief. I tried every known remedy, with the same results. I thought I would never get better until a friend of mine told me to try the Cuticura Remedies. SAD STORY OF A WASTED LIFE.

Here's a life-story in a few lines,

"Half a century ago a young Englishman, while traveling, met a beautiful girl and promptly fell in love with her. A few days later he re turned home and his first act was to write her a love letter. In it he told her, that if she regarded his proposal favorably he would expect a reply by the next mail. To this letter he received no answer, and so disappoint ed was he that, from that time until shut himself up in his home and lived like a hermit. Most of his time was it quite possible that the eccentric old notes in them. Ohio is excited over the most sensa tional kidnaping in the history of either state. It may rival the Cudahy case before it is finished, for while little Willie Whitla, who has been stolen by Italians, is being held for ransom, is the son of a well to do at torney, he is also the favorite nephew of F. U. Buhl, the millionaire iron king, and it is thought the kidnapers EMPLOYES LAID OFF HAVE BEEN SENT FOR are after the money of the latter.

The police of every city and town within 200 miles of Sharon are looking for traces of the child, who was stolen from the East End public school in broad daylight yesterday morning by two men, evidently Ita! ians. Today more than 200 buggles and wagons and half as many automobiles are scouring the hills and valleys within twenty miles of Sharon, for the feeling is abroad that the child is hidden in some of the numerous caves, either in Pennsylvania or

It was about 9:20 when a buggy with two men drove up to the East End public school building, and one of them said to Jaritor William Sloss, in rather broken English:

"Please go up and tell his teacher that Willie Whitla's father wants him at the office at once. We have come to bring him."

Sloss went up stairs to the room of Mrs. Anna Lewis, who is the teacher of the child and delivered the message. As she helped the child on witn his overcoat she jokingly remarked she hoped he wouldn't be kidnaped.

The janitor saw the men take the little fellow in the buggy between

When the child did not come home for his midday meal, Mrs. Whitla inquired of a neighboring child and was told that the boy's father had sent to the school for him. Construction of the Vessel to Furnish Employment for 6.000 Persons-Many Others Still Be Idle.

Brooklyn, March 19 .-- The officers of the unious of the iron moulders, machinists, brass and copper workers, coremakers, patternmakers and other metal shops trades reported that the starting up of work on the battleship Florida will take many of the idle mechanics in these trades off the streets.

A number of the men laid off in the Brooklyn navy yard already have been sent for and they are all in readiness for the call to work again. It is estimated that the building of the Florida will give employment to at least 1,500 laborers, and when the skilled mechanics are taken on it will give employment to about 6,000

J. Flanagan, business agent of the iron mouldess' board, which repre sents twelve local unions of iron moulders, says:

"Though the building of the Florida will leave a great many people still idle in the building shops trades, it will be a great boon and will put money in circulation which will help the other trades. Long before the Florida is finished we hope the long delayed revival in trade in the pri vate shops will have arrived."

PREDICTION MADE ABOUT EVERY TWENTY-FIVE YEARS.

Numberless Are the Prophets Who Have Set Days for Dread Happening-Scientists Declare It Will Last Long.

It may be interesting to the timid to know that the end of the world has been similarly predicted on an average of once every 25 years since the first recording prophecy of the bishop of Hippo, in 395 A. D. Since then there have been hundreds of dates by some people.

from every quarter of the old world tric Oil at once. It acts like magic sold their possessions and began a journey toward Jerusalem. Numerous prophecies had been made setting the Sent by mail to any address, pre- year 1000 as the end of the world. The failure of the predictions to come true resulted in great suffering among the poorer classes.

> The year 1212 saw thousands of fritz Building. people from Europe and Asia journeying to the Mediterranean sea, which prophets had predicted would become dry in order that they might walk to the Holy Land for the end of the world.

An Italian priest predicted the end of the world in 1335, but the prophecy was not generally believed. In 1533, the course in June. This speaks we'll however, the prophecy of Steiffel, the for Smithton's three-year high school friend of Martin Luther, which set October 3 of that year as the day the three-year course in Smithton last for the end of the world, was widely believed. Thousands of Steiffel's followers disposed of all their possessions and awaited the coming of the great event. As the day passed and nothing out of the ordinary occurred the angry men and women turned on Steiffel and nearly killed him.

In recent years numerous prophets have set various days as the end of the world. The Adventists, when their followers numbered thousands, prepared for the coming of the world's end in both 1843 and 1844.

During 1899 nearly all the people in the city of Kharkow, Russia, sold their belongings and awaited the end of the world, which they firmly believed would take place in that year. The winter of 1899 and 1900 was severe and hundreds of the inhabitants died from hunger and exposure.

In the last ten years preachers and religious enthusiasts throughout this country have set days for the end of the world. Nearly every year from 1895 to 1905 has been selected as the fatal year, while several have set the date as the year 2000. Half a million Porto Ricans spent Thursday, May 22, 1904, in prayer, awaiting the coming of destruction.

As a contrast to the dates set by students of the Bible for the world's end are the predictions of scientists, who base their figures on scientific theories. The very shortest time any of those men give for the end of the world is 3,000.000,000 years.

Camden, N. J., March 19 .- As a se quel too a youthful dream of love, which resulted in the marriage of a couple that have not yet reached years of discretion, a suit for divorce began today before the court of chan-

The husband is only 20 years old, and accordingly suit has been entered

A year ago the young lovers were married at the home of the bride's father, a prominent farmer of Wenonah, and trouble began to brew, it is claimed, as soon as they had settled in the little home which had been rife ever since until the climax came when two teams drew up in front of the house to take the furniture to the home of Mr. Hill, sr., in this city.

About two weeks ago Mrs. Hill had her mother-in-law arrested for assault nd battery, and she was held in \$800
